

[Soft Drop from Mon, 13 Aug to WED, 15 Aug 07, 12:00 PM]
[LAST DATE FOR PHASE I ADD/DROP MON, 20 AUG 2 PM]

EXPLANATORY NOTE: The primary purpose of the Add/Drop procedure is to enable students to drop a limited number of subjects that they find unsuitable. Students are **permitted to drop up to two subjects** in each semester. Students will be permitted to add subjects in which spaces are or have become available during the Add/Drop process. Priority will be given first to students with special course requirements (e.g. Specialist LLM candidates) and then to candidates in their final (or only) year of studies at NUS. Candidates with more than one year remaining at NUS will be given lower priority as they will have higher priority in their final year. Within each priority level, priority will be given to students who have assigned their subjects a higher order of preference.

INSTRUCTIONS: (1) Please complete all parts of this form. (2) Requests to drop an elective subject within the deadline *will in most cases be automatically granted*. Students who have dropped subjects by this procedure will have the lowest priority should they wish to re-elect for the subject at the end of the Add/Drop process.
